Washing Won't Rid Head Of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you get rid of it entirely. To do this, you get about four ounces of ordinary liquid arvon; apply it at night when the scalp is dry; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how long it has been on the scalp.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.
